CORESITE OVERVIEW

Started in 2001, CoreSite partners with customers to provide reliable, secure data centers that improve business continuity and promote the growth of their ICT infrastructure.

The company builds and manages data centers across the United States, offering more than 2.0 million square feet of wholesale data center and colocation space to more than 500 customers.

CORESITE WASHINGTON, DC

CoreSite's Washington, DC data center is located downtown and is considered one of the region's most accessible points of peering and inter-connection. Occupying over 20,000 square feet in the 230,000 square-foot building, CoreSite's data center provides powerful and efficient solutions in the heart of Washington, DC's central business district.

One of Washington, DC's first meet-me rooms, 1275 K Street provides access to over 50 carriers and service providers. 1275 K Street is a unique offering in an important global market.

CONVENIENCE

CoreSite's Washington, DC data center is conveniently located downtown. The data center is a short drive from Ronald Reagan International Airport. Onsite, secure, covered parking is available in the 1275 K Street building garage.
