Reduce total cost of operation and accelerate digital transformation by deploying hybrid IT in one of the best-connected and most scalable data center campus on the Eastern Seaboard. NY1 and NY2 are where a diverse ecosystem of enterprises as well as domestic and international carriers securely do business.

NY1 is located at 32 Avenue of the Americas and is the ideal fit for high-performance requirements and connectivity to Europe. NY2, in Secaucus, New Jersey, is a Tier III facility with state-of-the-art mechanical and electrical infrastructure and above the 500-year flood plain. CoreSite's New York campus is expanding with a new facility, NY3, which is currently under construction right next door to NY2. This purpose-built data center will offer 85,000 square feet of turn-key data center space and 15 CMW capacity.

HYBRID IT DEPLOYED IN COLOCATION DATA CENTERS ENABLES BUSINESSES TO

- **MEET COMPLIANCE REQUIREMENTS**
- **REDUCE TOTAL COST OF OWNERSHIP**
- **ENSURE SECURITY AND BUSINESS CONTINUITY**
- **MONETIZE BUSINESS**
- **GAIN COMPETITIVE EDGE**
- **INTEROPERATE TO QUICKLY SCALE**

CORESITE VALUE BY VERTICAL

ENTERPRISE

Data center colocation is the starting point for an enterprise's digital strategy

- Great versatility with regard to size, density: ready for deployment and build-out at scale
- Meets stringent compliance standards for operations, security and reliability
- 24x7 on-site security, field operations, remote hands and service delivery platform
- CoreSite solvency and national footprint are attractive to local providers to support all customers

EDUCATION

- Low-latency, secure connection to data and high-performance computing resources
- Sustainability focus: state-of-the-art power and cooling
- Supports distributed collaboration strategies and real estate footprint optimization

FINANCIAL SERVICES

From mission-critical applications to AI programs – digital transformation starts in CoreSite data centers

- Secure, diverse, high-performance and cost-effective alternative to other competitors for customer deployments
- Dark fiber tethering between CoreSite's New York market facilities creates one of the most powerful, low-latency data center campuses on the East Coast
- Reliability and customer service: 100% uptime SLA
